

**ANNIE SEEGER (ANNAMARIE)
COSTUME DESIGNER**

With over 35 years of experience as a Costume Designer, Annie brings a deep understanding of storytelling through clothing to every project she works on. Her career spans film, theatre, and fashion styling for television, where she is known for her eye for detail and her ability to craft complete visual worlds through costume.

Originally working as an Art Director and Stylist, Annie transitioned full-time into Costume Design early in her career and has since established herself as one of South Africa's leading creatives in the field. Her approach is holistic — she considers the overall atmosphere, character, and design synergy across departments to ensure every element contributes to a cohesive look and feel.

Annie believes collaboration is at the heart of great design. She works closely with a trusted team of skilled key crew and assistants, supported by a fully equipped workshop and an extensive wardrobe collection that spans eras — from prehistoric times to the latest contemporary trends. This rich resource allows her to bring authenticity, creativity, and precision to productions of any scale.

**Has won a SAFTA award for Costume Design: Running with Sugar
Currently nominated for 2 more SAFTA awards in 2025/2026**
